### **LABVIEW REAL-TIME APPLICATION DEVELOPMENT COURSE**

The LabVIEW Real-Time Application Development course delivers hands-on training for developing powerful, reliable, deterministic measurement and control systems.

At the end of the course, you will be able to implement a LabVIEW Real-Time system that runs indefinitely with less than 4 ns of jitter.

This course is the fastest way to learn dynamic system architectures, real-time programming techniques, and time-saving development tips.

#### **Details van de opleiding**

- De opleiding duurt 3 dagen.
- De opleiding kost 1300 euro per persoon.
- Het lesmateriaal, drank en broodjes zijn inbegrepen.

#### **Indeling van de opleiding**

- Introduction to Real-Time
- Configuring your hardware
- Real-Time Architecture
- Timing Applications and Acquiring Data
- Communication
- Verifying your application
- Deploying your application
- Advanced Topics
