### **TESTSTAND I INTRODUCTION COURSE**

The TestStand I: Introduction course teaches you to use the features provided in the TestStand environment.

The course introduces you to the basics of customizing items (such as the operator interface, users, reports, and process model)

so you can build applications to match your test needs.

Upon completion of this course, you can develop practical test applications using the built-in tools supplied with TestStand.

#### **Details van de opleiding**

- De opleiding duurt 3 dagen.
- De opleiding kost 1300 euro per persoon.
- Het lesmateriaal, drank en broodjes zijn inbegrepen.

#### **Indeling van de opleiding**
